Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: In an effort to expedite the prosecution process [compact prosecution], the examiner contacted applicant's representative and proposed adding the limitations of claim 37 into both independent claims 22 & 44 so as to obviate a potential prior art rejection in view of Rock et al., '750, and to further distinguish the claimed invention from the prior art made of record. Applicant agreed to the proposed changes and as such, the application has been placed in condition for allowance [see attached examiner's amendment]. It is noted that after further review, consideration and discussion with applicant's representative, the claims are deemed to be definite and the previous 112(2) rejections have been vacated [note applicant's remarks filed June 18, 2007] .
